PROFESSIONAL SUMMARY

Backend-focused Software Engineer with 4+ years of experience building multi-tenant SaaS platforms, ERP systems, and CRM solutions across hospitality, garments, and consulting domains. Experienced in Laravel, PHP, MySQL, Livewire, Vue.js, and relational database design, with a focus on scalable backend architecture, database performance, and production-ready systems.

WORK EXPERIENCE

Software Engineer

Codeware Limited

05/2025 - Present

Dhaka, Bangladesh

- Develop and maintain backend features, resolve critical production issues, and optimize database structures and queries for scalability and performance.
- Provide technical support, troubleshoot system failures, and participate in client meetings to understand requirements and deliver effective solutions.
- Collaborate with frontend and backend teams to ensure seamless system integration, maintain code quality, and deliver reliable releases.

Software Engineer

Skylark Soft Limited - SLS

04/2024 - 04/2025

Dhaka, Bangladesh

- Developed and maintained backend and frontend features for ERP modules based on business and functional requirements.
- Refactored core ERP modules to improve processing performance and reduce database query load.
- Resolved critical bugs and documented technical findings to improve module stability.
- Redesigned key database structures to support scalability as client data volume grew.
- Provided technical support for high-priority client issues and production incidents.

Jr. Software Engineer

DevTechGuru Ltd.

08/2022 - 03/2024

Dhaka, Bangladesh

- Developed backend and frontend features across CRM, ERP, and web portal projects.
- Triaged and resolved bugs, improving system reliability.
- Designed relational database schemas for new modules, focusing on data integrity and query efficiency.
- Contributed to code reviews and documentation to support long-term maintainability.
- Provided support during critical production incidents.

EDUCATION

Executive Master in Information Technology

University of Dhaka 

2025

Dhaka, Bangladesh

B.Sc. in Computer Science & Engineering

Independent University, Bangladesh 

2022

Dhaka, Bangladesh

NOTABLE PROJECTS

- **Property Management System (PMS)**

Tech Stack: HTML, CSS, Tailwind CSS, JavaScript, PHP, Laravel, Vue.js, MySQL.

Description: Designed and developed a multi-tenant SaaS Hotel PMS using a DB-per-tenant architecture, with two applications: a Super Admin panel for tenant onboarding, billing, and global hotel data, and a per-hotel Tenant PMS covering front desk, reservations, guest CRM, POS, night audit, and accounting.

- **Al Zahra Consultancy**

Tech Stack: HTML, CSS, Tailwind CSS, PHP, Laravel, Livewire, MySQL.

Description: Developed a multilingual, multi-tenant CRM for a visa services agency, combining a public-facing marketing website with a back-office platform for customer management, invoicing and payments, commission tracking, double-entry accounting, and financial reporting.

- **etrip**

Tech Stack: HTML, CSS, Tailwind CSS, PHP, Laravel, Livewire, MySQL.

Description: Developed a hotel and tour booking platform for the Bangladesh market, including a partner portal for rate and availability management, local payment gateway integration, automated invoicing, and a dedicated tour booking module.

- **goRMG ERP**

Tech Stack: HTML, CSS, Bootstrap, JavaScript, PHP, Laravel, Vue.js, MySQL.

Description: Developed ERP modules for the garments industry to streamline business operations and contributed to Protracker, a cloud-based platform for managing orders, production, shipping, and invoicing.

- **Laboratory Information Management System (LIMS) - Wyss Institute at Harvard**

Tech Stack: HTML, CSS, Bootstrap, JavaScript, Tailwind CSS, PHP, Laravel, MySQL.

Description: Developed features for a Laboratory Information Management System to support sample management, workflow automation, data integrity, and research and testing operations.

- **Web Presence of Wyss Diagnostics Accelerator (DxA) - Wyss Institute at Harvard**

Tech Stack: WordPress, PHP.

Description: Built the public-facing WordPress website for the Wyss Diagnostics Accelerator program at the Wyss Institute at Harvard, showcasing the initiative and its research focus.

- **ERP of THREE ARROWS PLASTIC FACTORY CO.**

Tech Stack: HTML, CSS, Bootstrap, JavaScript, jQuery, AJAX, PHP, MySQL.

Description: Developed a web-based ERP solution for a Saudi Arabia-based company to streamline business processes, improve interdepartmental efficiency, and enhance data management.

- **CMS of QK Ahmad Foundation**

Tech Stack: HTML, CSS, Bootstrap, JavaScript, jQuery, AJAX, PHP, MySQL.

Description: Developed a web-based CMS for creating, editing, organizing, and publishing digital content, including text, images, and videos.
